PROFESSIONAL OBJECTIVE

Hello! I am a passionate software development student about to graduate, with extensive knowledge in programming languages such as C#. I have advanced knowledge in onion architecture and handle the SOLID principles. Additionally, I am familiar with using Entity Framework for object-relational mapping (ORM) in development projects. I also have basic experience in RESTful API with .NET Core, as well as basic experience in JavaScript and Python. I am proficient in using GitHub for version control and collaborative development. I am looking for an opportunity to apply my enthusiasm for problem-solving through programming and contribute to the development of innovative solutions. I am eager to learn and grow professionally in a dynamic environment while applying my technical skills in designing and developing impactful applications. My goal is to continue learning and growing as a professional while working on developing solutions that create a positive impact. I hope to be part of your team and contribute with my passion for programming and innovation!

EDUCATION

Software Development Technology
Instituto Tecnológico de Las Américas (ITLA)
Santo Domingo, Dominican Republic

16/05/2022 – term student

ABET Accreditation

Accredited By: Engineering Technology Accreditation Commission
